REVIEWER'S EXPLANATION :

OBRAZLOŽITEV RECENZENTA :

The proposed antenna does not include any new ideas.
 The discussion about microstrip lines makes no sense.
 The proposed antenna is not a complete electrical system:
 significant unbalanced currents may flow in the feedline.
 No prototype has been built and no laboratory measurements
 have been performed.
 A low gain antenna that is not suitable as an array element
 makes little sense at $\lambda=5\text{mm}$. It would make much more
 sense to use similar antenna designs at longer wavelengths.
