REVIEWER'S EXPLANATION :

OBRAZLOŽITEV RECENZENTA :

MOS transistors and the circuit diagrams are now ok.

Equations [3] and [5] are now even more wrong than in the original version (revision 05.08.2017). OMEGA_1/f is not specified for your semiconductor process. From your equations it appears that your oscillator only has 1/f noise and nothing else. This has no physical explanation.
