## IK 08 AND IK 10 GREEN'UP ACCESS SOCKET

MODES 1 & 2

Charging time

IP 55 - IK 08  
14 A - 3.2 kW  
single-phase

IP 55 - IK 10  
14 A - 3.2 kW  
single-phase

**8 to 14 A charging in complete safety**  
of all electric vehicles with a mode 1 or  
mode 2 cable, regardless of how much  
charging power is required by the vehicle

**Heavy-duty socket, identified  
for electric vehicles, also  
suitable for any application**  
Conforms to NF C 61314 and  
the LCIE test programme

IK 08 socket

**Optimum safety**  
Surface treatment of  
metal contacts  
to improve electrical  
conductivity

IK 10 socket

**DETECTION SYSTEM  
PATENTED BY LEGRAND**

Vehicles detect the secure Green'up  
infrastructure and select the  
maximum power that can be  
supplied via the socket, resulting  
in a shorter charging time.

(1) Average time for full charge according to manufacturer sources, variable depending on the model

## GREEN'UP PREMIUM CHARGING STATION

For any electric vehicle model

Shuttered T2S EV Plug socket for mode 3 charging, conforms to European Directives and car manufacturers' requirements

Green'up Access heavy-duty socket for charging in modes 1 & 2 and for all applications

### Integrated off-peak control

Automatically charges during off-peak hours, with override button for operation outside the low-tariff period

### MODES 1 & 2

### MODE 3 COMMUNICATION

Charging time

IP 44 - IK 08  
3.7/4.6 kW single-phase

IP 44 - IK 08  
7.4 kW single-phase

3

GREEN'UP CHARGING SOLUTIONS

### SOLUTION THAT IS INEXPENSIVE, ADAPTABLE AND SAFE

With the IK 08 and IK 10 Green'up Access socket, Legrand makes it easy to charge vehicles at home and in public car parks.

Inexpensive, simple to install, safe, they can also be used for all conventional purposes, and are specially prewired so they can easily be replaced with a mode 3 charging station.

WHEN I'M AT HOME, I CAN CHARGE MY ELECTRIC VEHICLE OVERNIGHT IN COMPLETE SAFETY

## READY TO INSTALL GREEN'UP ACCESS

MODES 1 & 2

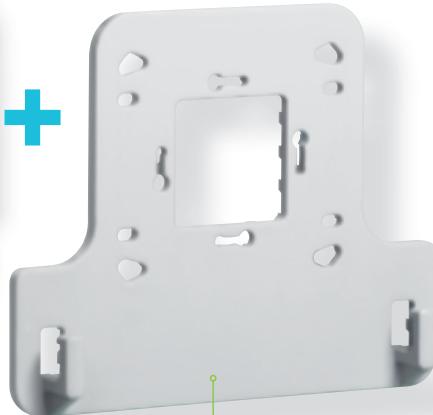

Charging time

IP 66 - IK 08  
14 A - 3.2 kW  
single-phase

**30 mA**  
20 A RCBO - C curve - Detects faults with AC and DC components

**Hanging bracket**  
For the charging cable control box

**Green'up Access heavy-duty socket**  
IP 66 - IK 08 - 25 kWh - 230 V

### SOLUTION THAT IS INEXPENSIVE AND SAFE, SIMPLE TO INSTALL

With the Green'up Access ready to install kit, Legrand offers anyone the opportunity to install the infrastructure for charging electric vehicles and plug-in hybrids, simply and in complete safety.

Consisting of a Green'up Access heavy-duty socket, a hanging bracket and a 30 mA RCBO, the Ready to install kit is ideal for both private homes and workplaces.

(1) Average time for full charge according to manufacturer sources, variable depending on the model

## Green'up™ Access sockets

## Single-phase Green'up™ Premium charging stations

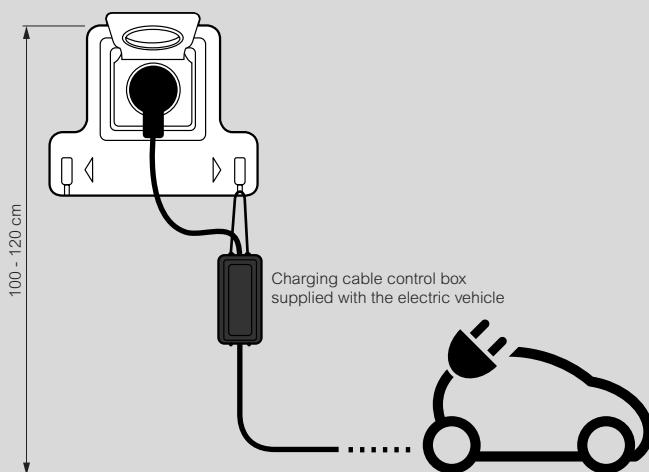

### ■ Installation principle for an individual mode 2 socket

- Can be controlled by clock/switch type control units, etc (to be ordered separately)
- Use of a surge protective device is recommended

### ■ Use of bracket Cat.No 0 904 78

Charging stations compliant with ZE Ready<sup>(1)</sup> specifications

With power adjustment function

Technical characteristics and wiring diagrams p.8

For charging all electric vehicles (equipped with single-phase and three-phase chargers) and plug-in hybrids supplied in mode 2 or in mode 3 in complete safety.

Comply with standards IEC 61851-1 and 61851-22

Charging station power can be adjusted with adapted protection devices and power supply circuits

Equipped with:

- a 2P+E socket (except Cat.Nos 0 590 20 and 0 590 29) with Green'up Access safety shutter benefiting from the innovative Green'up system, a Legrand Group technology which activates "maximum power" mode, ensuring fast, safe charging for 2P+E (mode 2) plugs
- a 3P+N+E (T2S) type 2 socket with blanking plates (single-phase operation) with pilot wire (mode 3)

Electrical panel connected and protected via 1 protected dedicated line  
Can be controlled by clock/switch type control units, etc (230 V signal input)

Single-phase - 230 V
